

4 What Shaft Diameter Fits You Best?

Shaft Size Does Matter!

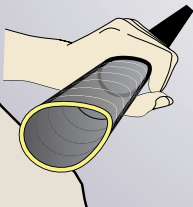

The proper fit is key to allowing a paddler to use a light grip to increase comfort and reduce fatigue – no matter what your skill level!

Line Your Hand Up Here

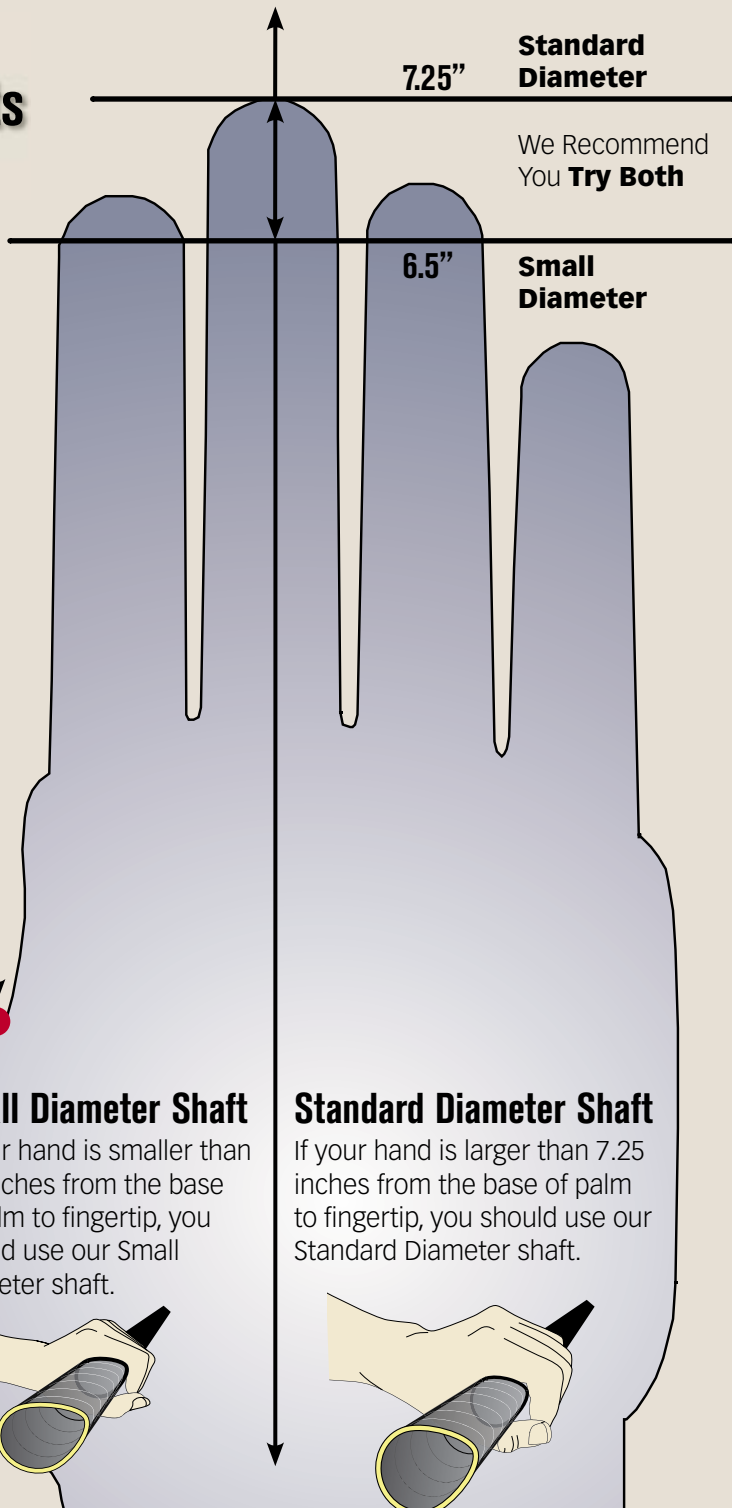

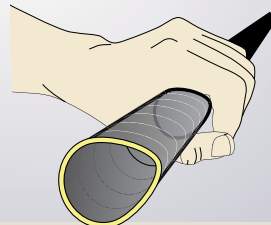

Small Diameter Shaft

If your hand is smaller than 6.5 inches from the base of palm to fingertip, you should use our Small Diameter shaft.

Standard Diameter Shaft

If your hand is larger than 7.25 inches from the base of palm to fingertip, you should use our Standard Diameter shaft.

Standard Diameter

7.25"

We Recommend You Try Both

Small Diameter

6.5"
