

List of Width x Length for Surfskis (March 1st, 2025)

In 2013 there were about 50 ski designs on the list, today it's about 273, and there must be a few more out there that are absent. Feel free to let me know what's wrong with/missing from the list. Happy paddling all!

Owen

(present set up: Stellar SEI 2G in Advantage lay-up for windy days, Epic V10 1G for less windy days, and Knysna Racing Delta L paddle - although I spend most of my paddling time on my Stealth 525 fishing surfski.)
